Exception may be given where allocation of places exceeds the number of athletes meeting the minimum standards, CI may consider athletes fractionally under these standards as a development opportunity, subject to budget restraints.

Cycling Ireland General Selection Policy Aim

- 3 CI will select a team that performs with distinction in 2019, The European Championship will give Junior athletes, on a long term Olympic pathway, the opportunity to experience a major Championship environment.
- 4 This Cycling policy is consistent with the aim.
- 5 All priorities listed above are subject to change due to performance, athlete availability or budgetary considerations

Sport Specific selection Standards

11 Below are the key selection details:

- i. By achieving the required selection standard in the manner defined for each discipline within the last 12 months, athletes are eligible for consideration to be selected to the European Championship 2019 team.
- ii. Where times are set, these must be recorded in official competition, under competition rules and or on a Cycling Ireland lead training camp recorded by a cycling Ireland official coach with official sheets to verify times achieved.

_Notes:

- I. The omnium shall be the final overall result only.
 - II. Points & Scratch Race: Except for where (I) above is brought into effect, the selection panel shall nominate individuals from those having met standards, for the events that they feel provide the best chance of success across both the points race and scratch race. Once selected, riders may be entered into different events to those where they have met the criteria at the discretion of the team management.
 - III. Where more riders meet the criteria than places available, selections will be made to provide the best chance of a medal in each event. Riders meeting selection criteria in other disciplines will also be considered with the best possible result in mind.
 - IV. All timed results must be achieved in official competition, under competition rules and regulations, in line with those of the UCI, and be timed using electronic timing.
 - V. All timed results must be recorded on a track less than 1000m above sea level.
- iii. Where a clear medal potential is identified for the Scratch and / or Points Race, selections will be based solely on supporting that or those individuals.
