

## **Castlebar Cycling Club Motion for 2020 Cycling Ireland AGM**

**Motion: Regulation G1.2: We propose increasing new club set up minimum membership from 6 to a minimum of 20 with all other criteria complied with as per Cycling Ireland regulations re club structure.**

In today's sporting society 6 people forming a club seems to be a very low number and could lead to problems in not having a larger number to give a broader outlook to what the club can achieve and offer to society.

Some of the various disciplines of cycling will be ignored with the smaller number. With 20 members the club will have numbers and an ability to promote itself as an entity within its community with 6 members you lower the presence.

In Connacht we have encountered clubs set up with 6 people and the sole purpose was to run one non-racing event yearly and gain access to cycling Ireland insurance cover
