12 Road Race (RR) And Time Trial (TT) MALE

- i. Riders competing in the World Tour may be selected on one performance at world tour level in the previous 6 months ,subject to correct level of form and fitness and regular programme of racing (at World Tour level) Such riders will also need to make a clear commitment to prioritise 2019 World Championship within their programme.
- ii. Riders not competing at world tour level wishing to be considered for either the RR and/or TT, riders need to achieve a minimum of **two** results from the following; For the avoidance of doubt, a single result or standard may be met on two occasions or a combination of two results / standards may be met.
- iii. Where less riders meet the criteria than quota places allocated, CI may use their discretion to fulfil the quota, such examples being a rider that has no professional team limiting their access to UCI events but have met one of the criteria indicated below.
- iv. Where a clear medal potential is identified for the Road Race, selections will be based solely on supporting that or those individuals. In this case, the selection panel will select the team of support riders in line with section 15 of this policy. Selection decisions will take into account the demands of the event, characteristics of the course, the environment and the specific support.
